XING provides advice and support to its more than 20 million members during the upheaval processes in the world of work. In an environment marked by a shortage of skilled workers, digitalization, and changes in values, XING helps its members achieve as harmonious a work/life balance as possible: For a better working life.

Node.js Backend Developer (m/f/d)

NEW WORK SE offers a wide range of brands, products and services for a better working life. One of our flagship products is XING e-recruiting, which offers tools and solutions that help companies find the right employees, as well as an extensive employer branding portfolio so customers can draw more attention to themselves as an employer.

A challenging task

As a member of our talented team, under Agile Development methodologies, your focus will be the development and maintenance of our web-based Recruiting products. We lead the German speaking market for social recruiting products.

A convincing background

- Experience in Node.js (Typescript) as Backend technology. Typescript experience is not required but it is a plus :)
- Testing (Unit Testing / End to end).
- DevOps mindset (you build it, you own it)

- Constantly evolving with the technology trends, and willing to embrace change.
- Team spirit and willingness to share knowledge with your colleagues.
- Fluent in English.

Bonus points

- Experience in PHP and/or Ruby on Rails.
- Experience with frontend web technologies like React, Angular, Vue.
- Hands-on experience on Kubernetes as developer.
- Hands-on experience on AWS as developer.

An inspiring environment

Check our Twitter account! https://twitter.com/NewWork_es

- Training, conferences and many opportunities to learn, experiment and grow.
- Innovation weeks (Hackweeks)
