*XING provides advice and support to its more than 18 million members during the upheaval processes in the world of work. In an environment marked by a shortage of skilled workers, digitalization, and changes in values, XING helps its members achieve as harmonious a work/life balance as possible: For a better working life.*

## Teamlead BI Data Modelling & Reporting (m/f/x)

Data is at the very core of NEW WORK to bring more value to our users and customers every day. In our central BI department, our System Architects, Data Engineers, Report Developers and BI Product Owners jointly work on end-to-end BI solutions for our end-users to enable data driven decision making in the company.

Do you also love working with large amounts of data, addressing exciting business challenges to help others have a transparent view on their business? Do you enjoy transforming data into transparent end-user reports and dashboards and help produce actionable analytics?

Then you would like working for BICC at New Work!

### A challenging task

- Functional and disciplinary leadership of the BI Data Modelling & Reporting team (~4 team members)

- Translation of business demand into BI solutions together with our BI product owners, Data Engineers and System Architects
- Responsible for the logical data modelling at New Work (Single Source of Truth) with close interaction towards BI data warehouse team on physical data model implementation
- Conceptual roadmap and owner of the BI frontend Tool (Microstrategy, Tableau) incl. vendor management, application level administration and security concepts
- Development of end user reports and dashboarding in close cooperation with BI Product & Project team
- Setup of internal standards and processes on BI frontend tool usage
- Provision of BI frontend tool consulting, training and sparring partner to analytics departments

### A convincing background

- You have successfully completed a degree in the fields of Business Informatics, Computer Science, Industrial Engineering, Business Administration or similar fields with a strong quantitative / analytical focus
- You have min. 5 years of professional experience in the area of Business Intelligence in fast-moving, performance-oriented companies
- You have min. 3 years of team leadership experience, very good communication skills and a solution- and customer-oriented way of working
- You have extensive experience in regards to BI end user report development, logical data modelling meta data management with one of the relevant BI frontend tools (Microstrategy, Tableau, QlikView, PowerBI etc.)
- You have very good knowledge on state-of-the-art and visually appealing dashboard design
- You bring solid experience in modern data warehousing concepts, physical data modelling / integration and data management
- You have an entrepreneurial mindset, a hands-on mentality and a result-oriented working approach
- You want to work in a highly international team in an agile environment and cope with complex business/technical domains
- You are fluent in English, German knowledge is a plus

### An inspiring environment

The New Work SE offers a dynamic environment. As well as flexible working hours, you'll have an opportunity to unleash your skills and acquire new ones. We offer a wide range of training courses in addition to German, English and Spanish lessons, regular team and offsite events, and lots of fun. We also provide free drinks and organic fruit as well as a ProfiTicket public transport ticket, restaurant vouchers and travel insurance. And let's not forget the smartphone or iPad that you can use privately. You'll also be provided with a high-end Macbook Pro, and our offices have table football tables. If you're feeling really sporty, we also have great gym deals, and various other benefits....
